## Everyday Math, Grade 5

Chapter 5 Review
A survey reported favorite types of snacks for fifth graders. The results of the survey were as follows: 28\% Vegetables and Dip $10 \%$ Yogurt $20 \%$ Fruit $42 \%$ Other

Make and label a circle graph for this data below. Use your Percent Circle.

If 1,000 students answered the survey, how many of them chose "Other" as their favorite snack?

If 100 students answered the survey, how many of them chose "Vegetables and Dip" as their favorite snack?

If 50 students answered the survey, how many of them chose "Yogurt" as their favorite snack?
